Keeping the Studio Safe and Healthy-Updated August, 2021

For the safety and comfort of our students and members, we are proceeding carefully with classes and open studio. We have installed state-of-the-art air cleaning filtration systems. The studio also has a maximum healthy HVAC air exchange system.

In compliance with the latest CDC and Washtenaw County Health Department guidance, here are our current expectations of students and members with respect to COVID-19 prevention:

- We ask everyone, even those who are fully vaccinated, to wear a mask in the studio. Also, please keep a 6-foot distance between you and everyone else in the studio when possible.
- **Sign in** when entering the studio and **sign out** when leaving the studio. We need to keep track of who has been in the studio.
- Visit our hand sanitizer station and sanitize your hands when you enter the studio.
- Do not come to class or open studio if you are unwell.

We will update these expectations as the CDC issues new COVID-19 guidance.

Keeping the Studio Clean and Running Smoothly

A healthy studio is also a clean studio. As community of clay workers, it's up to us to keep the studio clean and welcoming. We expect all students and members to be conscientious about clean-up and courtesy.

- Clean your work area and leave it better than you found it.
- After working on the wheel, mop the floor around your wheel and clean your mirror.
- Clean every table surface that you have worked on.
- After using the glaze area, clean off the table surface and surrounding floor.
- When finished cleaning, wipe out your sink.
- If you receive phone calls, please step out of the work area to talk and do not use speaker phone.

We thank you for your cooperation in keeping the studio clean and cordial.
