## Keeping the Studio Safe and Healthy

The **CDC** has lifted the universal masking advisory for communities where the risk of transmission is **low or medium** as determined by the CDC. Please see the current risk level for Washtenaw County [on the CDC's COVID by County page](#) to gauge whether you should wear a mask at the studio to protect yourself and those around you. CDC currently updates this advisory **every Thursday at 8 pm ET**. As the situation is fluid, you can visit [this Washtenaw County Health Department page](#) to check current transmission risk and case numbers in the county.

The studio will operate in accordance with the latest CDC advisories. We thank you for helping us keep our studio safe and healthy for all students and members.

## Keeping the Studio Clean and Running Smoothly

A healthy studio is also a clean studio. As community of clay workers, it's up to us to keep the studio clean and welcoming. We expect all students and members to be conscientious about clean-up and courtesy.

- Clean your work area and leave it better than you found it.
- After working on the wheel, mop the floor around your wheel and clean your mirror.
- Clean every table surface that you have worked on.
- After using the glaze area, clean off the table surface and surrounding floor.
- When finished cleaning, wipe out your sink.
- If you receive phone calls, please step out of the work area to talk and do not use speaker phone.

We thank you for your cooperation in keeping the studio clean and cordial.
